You can't fuck with me I'm with ma man Warren G  
Then now by myself, workin' with Krizz Kaliko  
This is just an opening of my turnabout  
You should stay tuned The title of the drama is My ego  
Never starving to death before I become a star  
Keep slandering all day long on your double standards  
You ain't listener  
Rather speaker sounds better  
Yeah we the same prisoners  
Fate God has given us  
Mostly swearing at me but I'm still in mother's womb, they are my placenta  
Thank you for all the hating  
Once I release my mix tape which is super cool based on that, try rating  
I don't care that shit go twitter go share that shit  
Your narrow sight, prejudice, pride I'll tear that shit  
So clear born-haters would shut their mouths up  
Look at the mirror whether you are confident

Yes sometimes my shade goes far ahead of me  
I'm not embarrassed I know well about the darkness of myself  
Every night I turn into a flower perfectly flaring up  
I know much that fire doesn't have shadows  
Fire is also a flower. Do you know the meaning of me in the language of flower?  
No, you cannot even smell my scent  
Even when my ego crawls over the floor of Sinsa station  
I never beg for your compassion or superficial praise  
Please don't die and be the witness of my success  
Be ashamed to the death that you fail to recognize me  
Although a distant sense of loss is filling me  
Those who still trust me make me warm  
You know I go, yeah I make the storm  
The creation that an inevitable loneliness of mine made  
That's my life 'RM' That's my mixtape  
After listening, you all gon' miss me
