

## Pure Sugar

RMR

How you doin' darling?  
You know it's been a long time  
But every time you come to mind, you get me high

Smokin' your weed, baby, come sugar my team  
When you put the ice in my veins, darling, I'll never be the same  
Baby, I'm sweet, poppin' these, I'm in your teeth  
I'm gonna live in your brain, darling, you'll never be the same

Fire, knows me by my name  
Oh, fire, do it for the fame

When you wake me up, can you fall with me to the deepest parts of the sea?  
Can you follow me, where the time sits still, where we don't believe gravity? (Mmm)

Nah, I told you darling  
You come around with that sugar  
You get me high, ah

Summertime fun, baby, come sugar my gums  
When you put the pussy on me, darling, you know what I need  
Baby, I know, brought my hands with you, don't show  
Go ahead, give me a kiss, never been higher than this

Fire, knows me by my name  
Oh, fire, do it for the fame (One, two, three)

When you wake me up, can you fall with me to the deepest parts of the sea?  
Can you follow me, where the time sits still, where we don't believe gravity? Mmm

See, darling  
I done told you now, I told you  
You gon' put that sugar on me  
It gets me high
