# SILENCE

**RMR**

Silence, silence in the hills
Revisin', adjustin' to your will
Two more shots, she's ready for the nighttime
Put in effect, she comes from royal bloodline
Silence, silence in the hills

Drunk with Heresy
No, no, not Hennessy

Your madam, majesty
[?] clemency
Oh mercy, mercy she
That's the irony
She love the [?]
Can't get back to right
Destroyed her paradise
You see it in her eyes
Trust was her only vice
Brought up to be queen
She knows no other way
There's the pride you see
She loved, but can't forgive

Silence, silence in the hills
Revisin', adjustin' to your will
Two more shots, she's ready for the nighttime
Put in effect, she comes from royal bloodline
Silence, silence in the hills
