

# Excuse Me

Ro James

Why you do it to me?  
When I paid your rent  
All the time I spent on you  
Oh, you're so selfish  
Wasn't 'bout the money  
Girl, we just didn't fit  
Certain things I miss 'bout you  
I can't help it

You had it easy but you just couldn't play your part  
Our heart was starving while you focused on so many parts  
Out of the line, it's way too old to be acting up

So excuse me, what's your problem?  
Why you so mad? You're crazy, babe  
Excuse me, you must be out your mind, baby  
But you got the right one this time, I  
You got me fucked up

Why you do this to me  
When you know how I felt?  
Every time I touch, your skin getting melted  
But you freeze quickly, I swear you so cold  
When I'm in my head, that's when I miss you the most

You had it easy but you just couldn't play your part  
Our heart was starving while you focused on so many parts  
Out of the line, it's way too old to be acting up, ay

So excuse me, what's your problem?  
Why you so mad? You're crazy, babe  
Excuse me, you must be out your mind, baby  
But you got the right one this time, I  
You got me fucked up

Ain't a shame that we started in peace  
Ended in flames?  
Don't wanna say that it's over and done  
But I like it this way

You had it easy but you just couldn't play your part  
Our heart was starving while you focused on so many parts  
Out of the line, it's way too old to be acting up, ay

So excuse me, what's your problem?  
Why you so mad? You're crazy, babe  
Excuse me, you must be out your mind, baby  
But you got the right one this time, I  
You got me fucked up
