Yeah yeah, yeah, huh, huh  
You roll me up, you roll me up  
But you don't hear me though  
Maybe you should turn me up  
You roll me up, hey, you roll me up, hey  
But you don't hear me though  
Maybe you should turn me up, huh

Sit, way back, one hand on my wood...grain  
Top down, I can't hear a fucking thing  
I just smoke on to my brain  
Counts before it goes insane and sing  
Please don't stress me mama, no  
Don't come around me cutie pie  
Please don't stress me mama, no no  
Don't come by to bring down my high

But you don't hear me though  
Maybe you should turn me up, uh  
Turn me up, huh  
You turn me up  
But you don't hear me though  
Maybe you should turn me up  
Baby roll me up, huh, roll me up, huh  
But you don't hear me though  
Maybe you should turn me up

Girl haven't I told you about two, three, four times before  
That I would ride for you, die for you  
Even pull the trigger just to prove my love for you  
But you weren't enough to blow  
Can't hit down with the get down  
I'm gonna have to let you go  
Please don't stress me mama, hmm  
Don't come 'round me cutie pie  
Please don't stress me mama  
Don't come by to bring down my high

(Please don't stress me mama)  
But you don't hear me though  
(Don't come 'round me cutie pie)  
Maybe you should turn me up  
Turn me up, huh (Please don't stress me mama)  
You turn me up  
But you don't hear me though  
(Don't come by to bring down my high)  
Maybe you should turn me up  
Baby roll me up, huh (Please don't stress me mama)  
Roll me up, huh  
But you don't hear me though  
(Don't come 'round me cutie pie)  
Maybe you should turn me up  
(Please don't stress me mama)  
(Don't come by to bring down my high)

Girl on my way, said you wanna play  
I'm not 84, or in your elevator

You got that extra loud, I know your neighbors hate us  
You get that extra mile, girl just don't drive me crazy  
No no no

(Please don't stress me mama, hmm)  
(Don't come 'round me cutie pie)  
Maybe you should turn me good  
Turn me up (Please don't stress me mama)  
Turn me up  
But you don't hear me though  
(Don't come by to bring down my high)  
Maybe you should turn me up  
Roll me up, huh (Please don't stress me mama)  
Roll me up, huh  
But you don't hear me though  
(Don't come 'round me cutie pie)  
Baby you should turn me up  
(Please don't stress me mama)  
(Don't come by to bring down my high)
