

Give It Up

Roachford

I said "Yeah" - I said "All right"
I said "Yeah" - I said "All right"

(Listen) if you own a car that won't start up in the mornings
And you push it into work everyday
Then you got to trade it in - get yourself a new one
'Cause sentimentalism doesn't pay

Now if you got a lover that don't give you all the loving
That you feel is due to you
Don't just sit around - hoping for a blessing
This is what you got to do

Give him up - give him for somebody new
Live it up - live it up with somebody new

Everybody say "Yeah" "All right"
"Yeah" "All right"

Give it up - live it up with somebody new
Gotta give it up - live it up with somebody new

When you've taken second place to the television
And you've given up trying to compete
There's a queue outside your door of knights in shining armor
Reaching halfway down the street

Now you've got desire burning like wild fire
Burning deep inside of you
It won't be too long until start to smolder

Give it up - live it up with somebody new
Gotta give it up - live it up with somebody new
