

High On Love

Roachford

I've been drowning in a world off madness
Just trying to keep my head above the darkness

Nearly giving up on everything
Thought I'd never feel my heart again

When you turn on the light
Can't turn it off
All fired up
High on your love
This time it's right
Can't get enough
All fired up
High on your love
And now I've be waiting
For this feeling
Nothing better
Now we're high on love
You're the magic
I was missing
Nothing better
Now we're high on love

There'll be hard days, there'll be tears and sadness
Whatever stands in our way I know we'll get around it

And I've got something to say before
Didn't know that I could have it all

Cause you turn on the light
Can't turn it off
All fired up
High on your love
This time it's right
Can't get enough
All fired up
High on your love
And now I've be waiting
For this feeling
Nothing better
Now we're high on love
You're the magic
I was missing
Nothing better
Now we're high on love

I'm feeling all fired up
All fired up
I'm feeling all fired up
All fired up
I'm feeling all fired up
All fired up
I'm feeling all fired up

Don't you know that you turned on the light
Can't turn it off
All fired up

High on your love
This time it's right
Can't get enough
All fired up
High on your love
And now I've be waiting
For this feeling
Nothing better
Now we're high on love
You're the magic
I was missing
Nothing better
Now we're high on love

I've be waiting for this feeling
Nothing better
Now we're high on love
You're the magic I was missing
Nothing better
Now we're high on love
