

Only To Be With You

Roachford

I used to live my life just fast and free, and do as I feel
Right down to the bone I was a rolling stone, just wanna be free

But now I think I might be just a little more than slightly, changing my views

This is a far cry from what I've known, cause all I know is I want

Only to be with you (yeah)
'Cause through and through
I'm just a freak for you

Nobody's want to make me stay this long, the way that you do
Turn your love on and I feel I'm reborn, I always want you
Sometimes I feel like hey this can't be right, this cannot be real

I've seen love come and I've seen it go, cause all I know is I want

Only to be with you
'Cause through and through
I'm just a freak for you
Only to be with you (yeah)
'Cause trough and trough
Girl I believe in you

Sometimes I feel like hey no this cannot be right, this cannot be real

And I feel like I've seen the light, 'cause all I know that I want

Only to be with you
'Cause through and through
I'm just a freak for you
Only to be with you (yeah)
'Cause through and through
Girl I believe in you

Do you know what I'm talking about
Make my world go round

Only...
Only to be with you...
