

# Testify

Roachford

If I testify  
Would you curse my name  
Never call me friend again  
If I testify  
If I shared with you my past  
The darkest hours  
Would you set me free at last  
If I testify  
If I testify

And wouldn't I still be the person you love  
And couldn't I still be the person you need  
And wouldn't I still be the person you love  
And couldn't I still be the person you need

If I testify  
'Cause this morning I will testify  
So if and when I testify  
If and when I testify

Wouldn't I still be the person you love  
And wouldn't I still be the person you need

I wanna know if I could tell everything  
Wish I could tell everything
