

This Generation

Roachford

Tell them in the city
Tell them near and far
This generation coming up
Are gonna be proud of who they are
So you've got to lend an ear
Hear what they've got to say
Maybe you could understand
Your way is not the only way

Cause this generation
Is gonna walk with their heads held high
I know this generation is gonna
Bring tears to the old man's eyes

Mamma said just be proud
And hold your head up high
'Cause what you've got is a precious thing
Money just can't buy
No way no no
So you can tell your father
You can tell your ma
There's a new age coming into town
And a new future might not be far

Cause this generation
Is gonna walk with their heads held high
I know this generation is gonna
Bring tears to the old man's eyes

A woo hoo, a woo hoo, talking 'bout this generation
A woo hoo, a woo hoo, talking 'bout this generation

So you can tell your father
And you can tell your ma
There's a new age coming into town
Then your future might not be far

Cause this generation
Is gonna walk with their heads held high
I know this generation is gonna
Bring tears to the old man's eyes
Cause this generation
Is gonna walk with their heads held high
Oh this generation is gonna
Bring tears to the old man's eyes

A woo hoo, a woo hoo, talking about this generation
A woo hoo, a woo hoo, talking about this generation
Can't you see that I, oh, I talking about this generation
Can't you see that I, oh, I talking about this generation
Can't you see that I, oh, I talking about this generation
