The End

Roadrunner United

Just when you thought it was over,
Sky turned black and we all fell to earth,
Dead in our tracks, we were frozen in fact.
Choking to breath then came the seas,
Wash away impurities, wash away all I couldnt be

Everyone will be washed away
Drowning in the hell that we made
I cannot believe that I have insomnia
Everyone will be washed away, drowning in the hell that we made
,
I cannot believe that I have insomnia.

Standing at the tall wall,
Breathing in the chaos behold,
None will be forout its all toppling down
Cities will sink none could believe,
Wash away impurities, wash away all I couldnt be.

Everyone will be washed away,
Drowning in the hell that we made,
I cannot believe that I have insomnia,
Everyone will be washed away, drowning in the hell that we made
,
I cannot believe that I have insomnia.

Save me, save me from what will make up this world, save us, sa
ve us from the incraveous from ourselves,
Save me, save me from what will make up this world.

Just when you thought it was over,
The sky turned black and we all fell to (fell to)

Everyone will be washed away,
Drowning in the hell that we made,
I cannot believe that I have insomnia,
Everyone will be washed away, drowning in the hell that we made
,
I cannot believe that I have insomnia.
