

Red & Blue

ROAM

Keep your voice down, smile wide
The only way to join the line
Take a number, you'll be seen
Just follow them and you'll be free

I cut my hair so hear me out
Hope my feet don't fail me now
Wrote my name in wet cement
Can't change it now, it's permanent
It's permanent

Is this all we are?
Permanent, permanent
Did we get this far?
Day to day to pay the rent
Cause it's all I know
All I've ever known
Is it all we are?

Take the blue pill, take me home
Let's call this a daydream
Take the red pill, see it all
Feel that comfort fading

If all of this means anything
A promise made for tired men
Dissatisfaction guaranteed
So join the line, it's not for me

Is this all we are?
Permanent, permanent
Did we get this far?
Day to day to pay the rent
Cause it's all I know
All I've ever known
Is it all we are?

Do we lie amongst the brain dead?
Who's the bird and who's the worm?
I'm relying on a safe bet
Down that rabbit hole, I will never learn

Is this all we are?
Permanent, permanent
Did we get this far?
Day to day to pay the rent
Cause it's all I know
All I've ever known
Is it all we are?

Is it all, all, all we are?
Is it all, all, all we are?
Is it all, all, all we are?
Is it all, all, all we are?
Yeah
