

## Demon Ghost Cave

ROAR

At the end of your life  
You were worried about how I would live mine  
Even when you're a light  
You can chose not to shine in the darkest of times

It's okay to want to die but you can't hide from  
It's okay to want to die but you can't hide from  
Every subsequent new life

I can love you today  
But I can't guarantee that you will be safe  
Still, you can't be destroyed  
By anything else, not even yourself

Though, you really tried to do all you could  
Though, you really tried to do all you could  
Though, you really tried to do all you could  
Though, you really tried to do all you could

(In a dream my shadow came to me  
Wearing the skin of my enemy  
In a dream my shadow came to me  
Wearing the skin of my enemy)
