

## Fading Kitten Syndrome

ROAR

We bury the children alive  
They gave you life  
They took it back again

Blink slowly your galaxy eyes  
Head toward the light  
Sorry for everything

Carry me in your teeth with tender jaws of sympathy  
(Arrow deep inside the meat  
Impossible for us to reach)

Shattered in a mist of crippled, angel silhouettes  
Lift the dirt, and cover me  
Lay at my side until I'm finally sleeping  
Until I'm finally sleeping  
Until I'm finally sleeping  
Until I'm finally sleeping
