It's Fine (Every Time)

ROAR

I don't blame you
There's nothing to do
I can't cry when I need to

Every time
Every time
Every time I think I've found it I am wrong

It's a habit
Just being traumatic
No reason to panic

Every time
Every time
Every time I think I've found it I am wrong

Lonely and paralyzed by fear
Like every single time you hoped you'd disappear

Lonely and paralyzed by fear
Like every single time you hoped you'd disappear

Lonely and paralyzed by fear
Like every single time you hoped you'd disappear

I don't need anyone
I don't need anything I'll be fine on my own
At least I'd like to think so

I don't need anyone
I don't need anything I'll be fine on my own
At least I'd like to think so
