

## Obedient Shape

ROAR

If you're gonna wait  
Wait til you know that it's safe  
Wait til you're sure that it's safe

Then you can't complain  
When it feels like you're frozen in place  
Feels like you're frozen in place

Taking each day like a torrent of waves  
Carving expressions in your stony face

Crushed by sea like it's a routine (it's a routine, it's a routine)

In that wake is an obedient shape  
If you want change, you'll have to learn how to not drown  
Til then it seems to have to work itself out

In that wake is an obedient shape  
If you want change, you'll have to learn how to not drown  
Til then it seems to have to work itself out

To bless distress I wither away  
I try to remember but I know I can't keep track of the things you say

To bless distress I wither away  
I try to remember but I know I can't keep track of the things you say
