

Break My Fall

Rob Baird

Will you be there to break my fall
Pick me up when I miss the midnight call
Come the morning when I've lost it all
Will you be there to break my fall

Will you be there to break my fall
To pick me up when I hit the midnight wall
If you've got love I need it all
Will you be there to break my fall
Will you be there to break my fall

If I was to tell you all that keeps me up at night
Would you turn and walk away, would you stand and fight
See, I'm on my knees
On my knees for you

Will you be there to break my fall
Two a.m. when my dreams don't stand so tall
Broken sunrise I'm feeling small
Will you be there to break my fall
Will you be there to break my fall
