

Gone Forever

Rob Baird

Up in the sky again
Here her heart on the wind
Baby, I got tired of thinking about
Losing things I can't live without

If I was gone forever
Would you still remember these lines
Twisted up and tied up together
Two hearts turning in time
Two hearts turning in time

Put the wheels on the ground again
Let it fall back let it all begin
Let's keep the world aspiring just our way
Cause I got a feeling that ain't ever gonna change
I never get tired of thinking about
The one thing I can't live without

If I was gone forever
Would you still remember these lines
Twisted up and tied up together
Two hearts turning in time
Two hearts turning in time

We can touch the stars tonight
Let it go and let it shine

We can touch the stars tonight
Let it go and let it shine

We can touch the stars tonight
Let it go and let it shine

We can touch the stars tonight
Let it go and let it shine

If I was gone forever
Would you still remember these lines
Twisted up and tied up together
Two hearts turning in time
Two hearts turning in time
Two hearts turning in time
