

# High Road

Rob Baird

All the king's horses, all the king's men  
Found you at the bottom, brought you back again  
No matter how far you run, how fast you sinned  
I'd forgive you what you've done, where you've been

There's only one right to this wrong  
It will never be too far gone

If you make it back to me  
Ain't no reason left to leave  
What you want, what you need  
Is the high road back  
High road back to me

You gonna straighten up now, you gonna fly right?  
Gonna let the darkness make a fool of you tonight  
The ghost won't follow in the light of day  
The love that we'll swallow will take the pain away

And if you make it back to me  
I'll be your reason to believe  
When what you want, what you need  
Is the high road that will bring  
You back to me

And if you make it back to me  
Ain't no reason left to leave  
When what you want, what you need  
Is the high road that will bring  
You back to me
