

# Hold Tight

Rob Baird

Hold tight keep running  
All night need something  
I got a heart that is burning so bright  
I got a love that will treat ya just right  
And I need ya need ya  
To hold tight

I hear the wind and it's screaming  
Better when I am leaving  
Like a diamond on the edge of a razor blade  
I'm hanging every word that you say  
And I'm bleeding, bleeding  
Hold tight

Hurricane Heart and a lipstick flame  
If we turn back now gonna carry that blame  
Shaking that ground and howling your name  
Hold tight  
Hold tight

I got a heart that is burning so bright  
I got a love that will treat ya just right  
And I need ya need ya  
To hold tight  
To hold tight  
To hold tight  
To hold tight
