

# I Tried

Rob Baird

Making my way out of DLA  
Running with the light of the breaking day  
Staring at the sun, is it all in vain?  
Gonna leave my trouble, gonna leave my pain

Going fifty-five down I-10  
Ain't no rush, baby, to get back in  
Never saw it coming, well, I didn't think twice  
Risking everything under Marfa lights

Baby, I tried  
Baby, I tried  
Baby, I tried  
Leaving love in the dead of night  
Stayed so long and it never felt right  
Baby, I tried

Everywhere I go it's pouring rain  
Shouldn't have to hold on to try to stay sane  
It's so hard when you're falling fast  
Saying things that you never get back

Baby, I tried  
Baby, I tried  
Baby, I tried  
Baby, I tried  
Leaving love in the dead of night  
Stayed so long and it never felt right  
Baby, I tried

Don't wanna fight  
Don't wanna fuck  
'Cause I'm putting too much of me into us
