

Into the Wild

Rob Baird

I might say to you
Something southern something blue
That I never said before

Turns out alright
It might be our night
Just what we're looking for

Walking into the wild
Falling into a dream
Where the stars never die
Neither will we
Walking into the wild
Walking into the wild
Walking into the wild

Right now no harm
Right here my arms
We gonna break away clean

Walking into the wild
Falling into a dream
Where the stars never die
Neither will we
Walking into the wild
Walking into the wild
Walking into the wild
Walking into the wild

Turns out nothing's new
Nothing's over nothing's true
And I'm lost in between

Walking into the wild
Falling into a dream
Where the stars never die
Neither will we
Walking into the wild
Falling into a dream
Where the stars never die
Neither will we
Walking into the wild
Walking into the wild
Walking into the wild
Walking into the wild
Walking into the wild
Walking into the wild
Walking into the wild
