

Kerosene Heart

Rob Baird

Got a kerosene heart, looking like its ready to blow
You don't ever stop telling me to take it slow
Looking behind for that line that I crossed
Wondering where I left the love that I lost

Bang, bang, bang knocking on the door
Waiting around for you to want more

I'm on fire!
Reeling like I've never done
Feeling like you got me
On a wire!

Got a kerosene heart, won't stop burning for you
Only took one spark now I can't put out that fuse
Same old game with nothing left to prove
Screaming your name begging you to cut me loose

I'm on fire!
Reeling like I've never done
Feeling like you got me
On a wire!
Best that I could ever be
With that you were here with me
On Fire

I'm on fire!
Reeling like I've never done
Feeling like you got me
On a wire!
Best that I could ever be
With that you were here with me
On Fire

Got a kerosene heart, looking for my drop of rain
I only came here because I thought you came
