

Say Goodbye

Rob Baird

In love, given up
Tryin' everything but it wasn't enough
Better off, on my own
Chasin' somethin' that's already gone

Go on and say, go on and say goodbye
We gave it a shot, we gave it a try

I'm on my knees, beggin' baby, please
We're breakin' at the seams

Go on and say, go on and say goodbye
We gave it a shot, we gave it a try

Go on and say, go on and say goodbye
I'm tired of livin', this life, oh say goodbye

Love ends, nobody wins, love ends, nobody wins
Light that fuse, step back, let it all begin

Go on and say, go on and say goodbye
We gave it a shot, we gave it a try

Go on out that door
I don't wanna see you no more
And I'm tired of livin', this life
Say goodbye
