

Sideways

Rob Baird

She kicked her feet up on the dash
Nothing there to hold her back
From saying things she'd never have to mean

January came and went
All the time that we had spent
Ended up like weather in the vain

We got Sideways
Went burned it all the way down
We got Sideways
Heaven help us now

We got sideways
Went burned it all the way down
We got sideways!
Let love be forgotten now

It's a high price to leave it all the same
Leaving love is lonely lonely game
Lost in a lie or was it a just a dream
Guess it just don't feel like it seems

We got Sideways
Should've listened to my doubts
We got Sideways
We just let time run out
