

## Wrong Side of the River

Rob Baird

Gonna hitch me a ride in the dead of night and leave  
You can keep your weekend gamblers and your goddamn delta heat  
I don't need your empty dreams and miles of angry streets  
Like that hard-earned money I'm gone  
Been on the wrong side of the river too long

I've been staring at the lights of Tennessee  
All my life that golden fire have been staring back at me  
Calling me across them dark waters dark and deep  
Calling me saying "Honey, come on"  
Been on the wrong side of the river too long

Gonna see that devil fell down from the sky  
Lost his place in heaven among the angels they're on high  
Fell into that river, washed up on the side  
Trying to find himself a new home  
He's been on the wrong side of the river too long

Been on the wrong side of the river too long  
He's been on the wrong side of the river too long

Been on the wrong side of the river too long  
Been on the wrong side of the river too long  
Been on the wrong side of the river too long  
Been on the wrong side of the river too long  
Been on the wrong side of the river  
Been on the wrong side of the river  
Been on the wrong side of the river too long
