

The Rendezvous

Rob Cantor

We do the rendezvous, I wanna meet back up with you
I know you're miles away, but I wanna take back my mistake
Leaving you
We do the rendezvous, I hope that your intent is true
'Cause I know my heart is right, and I wanna see you twice toni
ght

I can see I was wrong (I can see I was wrong)
Didn't take very long (Didn't take very long)
I go dark when you're gone
We could start it again

We have to leave to know to stay
I call you up then run away
We have to leave to know we want to stay

We do the rendezvous, another chance to start anew
I wanna give this ring to you, I got a song to sing to you

I can see I was wrong (I want you back tonight)
Didn't take very long (I want a hand in mine)
I go dark when you're gone
We could start it again

We have to leave to know to stay
I call you up then run away
We have to leave to know we want to stay
We have to leave to know to stay
I call you up then run away
We have to leave to know we want to stay

We meet and then we part again
We quit so we can start again
We have to die to let a life begin
We have to leave to know to stay
I call you up then run away
We have to leave to know we want to stay
We meet and then we part again
We quit so we can start again
We have to die to let a life begin

We do the rendezvous, I wanna meet back up with you
I know you're miles away, but I wanna take back my mistake
Leaving you
