Rob Stone

Back up, ho back up  
I fuck a check up then stack up  
I'm bout my money, no answers  
For all these questions they askin'  
I see these cameras, they flashin'  
I fucked your bitch cause I'm handsome  
I check ya later, I'm dashin'  
In alligators, I pass up  
I get my cash up, my cash up  
Now runnin' bands up them bands  
And my chain just glisten on camera  
I still ain't picked up the fat one  
When I need these people to back up  
Go make a nigga just act up  
I cheese for cameras to gather  
I kick my feet up in traffic  
Give me all my space, just give me room bitch  
And if you niggas got a problem make a move bitch  
See how the copy make copies  
These paparazzi keep watchin'  
I'm off the chain, I keep flossin'  
Make people want me, they haunt me  
Watch me keep tauntin', go walkin'  
Still take a bitch like it's nothin'  
I think they want me, they want me  
Still ain't got me, still plottin'  
Please keep the leeches up off me  
Please keep the trees in your pockets  
Please keep your knees, know you want me  
But I do me so keep walkin', yeah

Keep goin'? Yeah, yeah, yeah, yeah  
Give me room, bitch  
Give me room, bitch  
Give me room, bitch  
Give me room, bitch  
Make a whole thing  
Make a whole thing

Stack up, I stack up  
Yeah I just rack up and rack up  
I told my new bitch don't act up  
Just keep it cool and don't act up  
I'm with a new bitch  
She think she cool shit  
Man she just lackin' the answers  
To how to deal with demand up  
To get them grams up to average  
All up in a different tax bracket  
I see mama all happy  
When she see me, she start dancin'  
I'm making static ecstatic  
To get the cash, yeah I'm rappin'  
I let 'em have it, I'm at it  
I'm like an addict for cabbage  
How do I watch the cream when I got pussy around me?  
I see you in the mirror, need to stop looking behind me

I'm faster, go faster  
I pick my speed up, I gas it  
The damage done so demand it  
Please put this beat in the casket  
Please don't leave me in my [?]  
Please don't get greedy for ransom  
Please don't be needy, no askin'  
Please don't you see me just graspin'  
Just leave the peace in my castle  
I leave the grove as a statue  
I'm in my zone let 'em have it  
Bitch I'm the gold and the cancer  
God damn
