

# Can't Help Me Now

Rob Thomas

Sunlight falls heavy  
Can't hide you're awake already  
Long night, you're unsteady  
You don't even wanna be here do you  
Cry out not for the last time  
It's funny how a word might save your life  
And I'm saying a lot right now

But I don't wanna fight, I don't wanna cry  
I don't wanna leave, I don't wanna be here, be here now  
There's a bad taste in my mouth  
I stumble in the dark, tripping on a heart  
It's gonna leave a mark, maybe we can stay and wait it out  
You're the one that talks me down  
And even you can't help me now  
Even you can't help me now

Headlight, dark highway  
I drive on but it feels all sideways  
No signs, I'm a headcase  
I'm alone but I feel you, feel you now  
Head down, I can't remember  
If we left on a start or an ender  
You and I, we're so worn down

But I don't wanna fight, I don't wanna cry  
I don't wanna leave, I don't wanna be here, be here now  
Like a bad taste in my mouth  
I stumble in the dark, tripping on a heart  
It's gonna leave a mark, maybe we can stay and wait it out  
You're the one that talks me down  
Even you can't help me now

And we fall, and we break  
And we turn our inside out  
And we're lost in a daze  
For days and days and days and now  
But I thought that I could turn it around

But I don't wanna fight, I don't wanna cry  
I don't wanna leave, but I don't wanna be here, be here now  
There's a bad taste in my mouth  
Hell, I stumble in the dark, tripping on a heart  
It's gonna leave a mark, maybe we can stay and wait it out  
You're the one that talks me down  
Even you can't help me now  
(Sunlight, falls heavy) Even you can't help me now  
(Sunlight, falls heavy) Baby, even you can't help me now  
(Sunlight, falls heavy) Even you can't help me now
