Rob Thomas

I was born on a bad sign
Saw the best in the worst times
Had a run with some good lines
All fear and alibi
Had a laugh for a good while
And all my tears were crocodile
I came down hard a million miles away
And here I am

So let it fall around our feet
I'm with you and you're with me
And you're the only one I think about these days
We may win or we may lose
All I know is that I'd choose it all again
And how I feel could never fade
Life is funny that way
That way

I was raised on a fault line
Thought the faults were all mine
I drank so hard I almost died
Most of the time
But what the hell do I know
When I just go where the wind blows
All this time and all I know
Is I don't know so much

So let it fall around our feet
I'm with you and you're with me
And you're the only one I think about these days
We may win or we may lose
All I know is that I'd choose it all again
And how I feel could never fade
Life is funny that way

And now I never thought I was enough
I never thought I pulled my weight
I painted the lines until I was drawn
But I'm not sure that it looks like me

I was born on a bad sign
Saw the best in the worst times
Singing all of the wrong lines all my life

So let it fall around our feet
I'm with you and you're with me
And you're the only one I think about these days
We may win or we may lose
All I know is that I'd choose it all again
And how I feel could never fade
Life is funny that way
That way
