

I Love It

Rob Thomas

Don't fear no mountain, don't fear no climb
Don't need no woman to get me by
I got it bad, I read your mind
Know what you're thinkin' all the time

This is the new stuff
Rub you black and blue stuff
See what I can do stuff
You wish it was you stuff
You don't wanna like it but I'm feelin' like you do stuff
I just keep it real 'nough
Everybody hold up

I love it
Feelin' nothin'
Man, I love it
Feelin' gets me down, down, down
I love it
Feelin' nothin'
Man, I love it
Feelin' gets me down, down, down

Pray on that mountain, pray on that climb
I'm in a moment, you heard it right
You got me wrong, I'll let it slide
Just pay attention, I'll tell you right

I got it made now
I've been gettin' paid now
I won't be gettin' played
I'm never gonna fade out
I just keep on hitting you with fire till your flame out
Tell me how it feels now
You got nothin' real now
You got nothin'

Well I'm about to, I'm about to
I'm about to break out, well now
I, I do not know why, but I'm feelin' high
So I testify

I love it
Feelin' nothin'
Man, I love it
Feelin' gets me down, down, down
I love it
Feelin' nothin'
Man, I love it
Feelin' gets me down, down, down

I love it
Feelin' nothin'
Man, I love it
Feelin' gets me down, down, down
I love it
Feelin' nothin'
Man, I love it

Feelin' gets me down, down, down

Down, down, down, down, down

I love it, I love it

I love it, I love it
