

# Paper Dolls

Rob Thomas

Better watch yourself  
Cause it's gonna be a long night ahead  
This is hallowed ground  
And there's fear in every word that you said  
Don't make any moves while you're angry, I beg

Cause I don't know how we got this far  
Don't know when we became who we are  
The war goes on behind these walls  
You and me are just worn paper dolls

Better not look down  
Cause it's gonna be a long way to fall  
This is our last chance  
And it's everything or nothing at all  
Don't make me a fool, darling don't make me crawl

Cause I don't know how we got this far  
Don't know when we became who we are  
The war goes on behind these walls  
You and me are just worn paper dolls

Worn from what's been said  
And on and now the rest  
Falls on where we go now

Cause I don't know how we got this far  
Don't know when we became who we are  
The war goes on behind these walls  
You and me are just worn paper dolls  
You and me are just worn paper dolls
