Save Some Christmas

Rob Thomas

The snow turns into rain
I'm faraway from home, it's almost Christmas again
I know I'm late, I wanted to tell you you don't have to wait

Hang up the lights
Decorate the tree
Celebrate with all your friends but save some Christmas for me
Make your holiday as bright as it can be just save some Christm
as for me

Oh yeah

We wait all through the year
We feel our spirits rise with every song we hear
Until we are near don't waste one more moment
The rest of the year

Hang up the lights
Decorate the tree
Celebrate with all your friends but save some Christmas for me
Make your holiday as bright as it can be just save some Christm
as for me

Don't waste one more day waiting for me to celebrate
Just start it right now and soon I'll be home now
I want it to feel like Christmas so

Hang up the lights
Decorate the tree
Celebrate with all your friends but save some Christmas for me
Make your holiday as bright as it can be just save some Christm
as for me
