

Thrill Me

Rob Thomas

Life passes by
So many trips around the sun
Amazing how you're still the one tonight
Time don't lie
We're stretching out like shadows at sunrise
And I'm constantly surprised

Because you

Thrill me
Rattle and reel me
The thought of you heals me
It fills up my mind
And when we
Go crazy I'm still with you baby
Cause after all this time
You thrill me

There were times
You and I
We're covered in the ash and dust
We almost saw the end of us and now
The stars align
We're everything we thought that we would find
But we paint outside the lines
That's why you

Thrill me
Rattle and reel me
You break and you heal me
The rush is divine
And when we go crazy
I'm still with you baby
Cause after all this time
You thrill me

And when we're down
We still shine
Brighter than the rest
And I wonder what comes next

Darling you

Thrill me
Rattle and reel me
You break and you heal me
The rush is divine
And when we
Go crazy I'm still with you baby
Cause after all this time
You thrill me

You still thrill me
