

## Years From Now

Rob Thomas

Right now your very young  
And the world is at your feet  
Pretty girls are calling you  
And they all sound so sweet  
Right now it's all the time  
Yeah everything is new  
Start taking it for granted boy  
Cause they're taking it from you

And years from now  
Your gonna feel so bad  
But you'll turn and walk away  
The way you always have  
Years from now

Right now you got your pride  
There's nothing left to learn  
Pretty soon the night will fall  
So be careful who you burn

Right now it's getting late  
Time to touch your faith  
Give it what you need  
It wasn't suppose to be this real  
Just tell me how you feel  
And then tell me how you'll feel about it babe

Years from now  
Your gonna feel so bad  
But you'll turn and walk away  
The way you always have  
Years from now

And years from now  
Your gonna feel so bad  
But you'll turn and walk away  
The way you always have  
Years from now

Oh years from now  
Years from now
