

# Overdose

Rob Vicious

Take a look where you was at and where you went to  
Don't even gotta stress 'bout what you didn't do  
Know that you surprised by all the love and hate that everybody send  
you  
But damn, just look at what you been through  
Ayy, yeah, ayy, ayy

Geeked up off the pain, I just hope that I don't overdose  
But I keep holdin' back, I just might overload  
That's what I be goin' through  
What the hell I get myself into?  
I'm just gon' keep on stackin' these racks and gettin' money like I'm  
meant to  
They gon' shoot soon as you say when to  
Nigga, you deserve it, look at what you been through

The game that we call rap is something else  
All I know trap, won't see me doin' nothin' else  
Shit it took few to do, I did it by myself  
This shit new to you, but this shit part my health  
They might never understand it  
I know I'm getting good at making shit looking fine and dandy  
Nah, I ain't drinkin' brandy, but this Henny is lookin' fancy  
What you know 'bout stashin' in the pantry?  
Hold on, let me hit the gas, just thinkin' 'bout it make me antsy  
Oh, I can smell it in the air, I can smell it in the air  
If you don't smoke, it might offend you  
Oh, can't you tell that I don't care?  
They gon' stare, then they gon' stare  
It's too much shit that I done been through  
Kept that shit real for real, but you're the one who only pretend to  
I guess the love do come and go just like the wind do  
My first mind is sayin' fuck it, cock this pistol and end you  
But damn, nigga, look at what we been through  
Ayy
