

# Tarantula

Rob Zombie

If we want to live, we must die

Nocturnal assemblies  
She who needs this  
Demons bring the witch to task  
She who needs this  
Reason, hunger, appetite  
She who needs this  
The slothful running naked  
She who needs this

My world is a coffin  
A wop bob a loo bop, a wop bob a loo bop

Call me tarantula  
Call me tarantula  
The god tarantula  
All hail tarantula

Ecstasy of torture  
She who needs this  
Berserk, comets, fireball  
She who needs this  
Skeletons they hook the skin  
She who needs this  
Hair-whipping vipers  
She who needs this

My world is a coffin  
A wop bob a loo bop, a wop bob a loo bop

Call me tarantula  
Call me tarantula  
The god tarantula  
All hail tarantula

Traveling in broken packs  
She who needs this  
Gut buzzard, raven's tooth  
She who needs this  
Crucified nobility  
She who needs this  
Vultures fill the waiting void  
She who needs this

My world is a coffin  
A wop bob a loo bop, a wop bob a loo bop

Call me tarantula  
Call me tarantula  
The god tarantula  
All hail tarantula
