

# No Love

Rob49

I didn't know I was alone until them pills start working  
I'll probably tell you I don't know if you you ask me was it was worth it  
One deep in that foreign tryna get used to being famous  
They don't know what I've been on I'm taking to love when I'm alone

They probably don't feel how I feel cause they don't live how we live round here  
Think that I ain't focus cause I'm long to give you rivers give you oceans if you're asking for these tears  
It ain't no love it ain't no  
It ain't no love it ain't no

I had dreams of being the greatest  
You ain't show no love but asking for a favor  
Family slowly losing touch feel like it's my fault and I hate it  
I still got my love for kelly through that lot that ain't my baby

Public housing made me convicted felons raised me  
Having dreams about my death feel like I'm burning in my sleep  
I won't bulletproof my car what they did on Christmas eve  
I want suicide my doors and put my thought in my vehicle

Niggas ain't never wanna listen I'm gonna show them why they should have  
It's so hard for me to believe these niggas living how I'm living  
They keep asking me how far it's up with them it's to the ceiling  
I ain't never like them niggas but right now it's even more  
I ain't taking care no niggas want me to treat them like my hoes  
I hate coming to this town where my brother died at  
I been trying to chase a sack like a fucking linebacker  
I been taking care my family all them hoes coming after  
They treated me like I ain't matter

I didn't know I was alone until them pills start working  
I'll probably tell you I don't know if you you ask me was it was worth it  
One deep in that foreign tryna get used to being famous  
They don't know what I've been on I'm taking to love when I'm alone  
They probably don't feel how I feel cause they don't live how we live round here  
Think that I ain't focus cause I'm long to give you rivers give you oceans if you're asking for these tears

It ain't no love it ain't no  
It ain't no love it ain't no

For any nigga fighting trial I been praying for you  
For any momma lost a child I been praying for you  
They said them diamonds fix the pain who lied on that Aquafina  
I lost my dawg that shit hit me like that hurricane Katrina  
Got homies who on go for me from that no back from M.O.B  
Brown ill never let my evil take me in these cold streets  
You won't let my way can't see you speaking to the old me  
Laying it up I'm straight feels like every one know me now

Know me now, know me now, know me now, know me now  
Like they know me know  
If we don't swim we drown  
I need someone to save me now

Can't get a breeze but this the life that I was drew  
My rockas hanged around when no one was in the room

I didn't know I was alone until them pills start working  
I'll probably tell you I don't know if you ask me was it was worth it  
One deep in that foreign tryna get used to being famous  
They don't know what I've been on I'm taking to love when I'm alone  
They probably don't feel how I feel cause they don't live how we live round  
here  
Think that I ain't focus cause I'm long to give you rivers give you oceans i  
f you're asking for these tears

It ain't no love it ain't no  
It ain't no love it ain't no
