Niggas really capping, we got straps for any opp bitch
And if you seen a drop piss on his block, police can't stop this
I'm just laying low, cooling with gang they just made profit
Posted in the trap we have it jumping like a mosh pit
Like nigga better stop this
Shoot it till it click got hella sticks we will not miss none
Book me for a show, my security got that stick on him
Came up, got rich stay with my soldiers I can't miss homie
If I see the zay stashed the only time you will see me running

Purple flags, can't never catch us after dark
Bitch I'm on your ass, shoot at the car until it spark
Bitch I'm moving fast, a big dog but we don't bark
I got hella cash, these bitches leave the car in park

I want the backend I ain't got no cap up in my rap
Bitch I be spazzing shoot a flick then knock him off the map
Always capping up in that car that burner on my lap
And when its smoke with that gang, put shit to bed like fuck a nap

Niggas hated on the kid when I was down they ain't want fuck with me
I remain the same, posted on Baker where my brothers be
My bitch a five star, she fuck up the motor two or three
I don't focus on that bad, I made some brand new racks the other way

Niggas really capping, we got straps for any opp bitch
And if you seen a drop piss on his block, police can't stop this
I'm just laying low, cooling with gang they just made profit
