Robb Bank\$

Do you remember me with your...  
At the rise of sun till the morning dawn  
The grass was barley wet from the midnight sweat  
See the light as it...

Ion give a fuck if he want you  
Imma get this shit  
We throw it at you  
Get this shit  
We throw it at you  
Well I get it  
We throw it at you  
Yea I get this shit  
We throw it at you  
Imma get this shit  
We throw it at you

When I would look at them  
Learning each time they close and open  
I see the wheels turn from your...  
Will they fall when I cut the strings

It all ends when the sun comes up  
No regrets when the night is done  
Nature knows when I've had enough  
It all ends when the sun comes up

It all ends when the sun comes up  
No regrets when the night is done  
Nature knows when I've had enough  
It all ends when the sun comes up

Let your hair down keep that hickey covered  
... Riri woo still all on my collar  
If that pussy water let me get a bottle  
I'm the solution to all your problems  
Silent treatment still scream you need me  
Get you sprung young tempurpedic  
I still eat it beat it hear no evil heard you  
Moaning, screaming, stop and repeat  
Fine, I'm fine. made up my mind you let me pass by  
Lied, you lied, and shawty that's just something I just can't put aside  
Ride or die, and what's yours is mine girl I keep my eye on what's on standb  
y  
You know I shine, I know you shine that's for life  
This forever that's until the hellfire  
You know I live through euphoria when I torture you  
Heed my warning as I take a tour through your aura  
Shine some more, when we roll to my quarters in Augusta Georgia  
Where I met the devil and she had a tape recorder  
And she shot a video that we both starred in  
Fuck all that shit I let it burn to your memory  
Same way I let it go, the same way I'm getting it  
Kill em with the note but I still can't ignore it  
And get on all fours if your ass really poet  
I own it and control it fucking console it I love and reward it  
Don't get too excited I'm lying and bitches should know it

It all ends when the sun comes up  
No regrets when the night is done  
Nature knows when I had enough  
It all ends when the sun comes up

It all ends when the sun comes up  
No regrets when the night is done  
Nature knows when I had enough  
It all ends when the sun comes up
