

# Need Somebody

Robben Ford

All alone  
And I need somebody to love  
The nights grow long  
When you need somebody to love  
Sometimes you cry  
When you need somebody to love  
Might even tell a lie  
When you need somebody to love

Tell her for me  
That I need somebody to love  
Baby, can't you see, can't you see  
That I need somebody to love

Say goodbye, so long, and now you're gone  
Somebody  
Tell her for me, yeah, can't you see I'm all alone  
Somebody

Tell her for me  
That I need somebody to love  
Baby, can't you see, can't you see  
That I need somebody to love, yes I do

Say goodbye, so long, and now you're gone  
Somebody  
Someone to love  
Tell her for me, yeah, can't you see I'm all alone  
Somebody  
Say goodbye, so long, and now you're gone  
Someone to love  
Tell her for me, yeah, can't you see I'm all alone  
All alone, somebody
