

## Too Much

Robben Ford

I'm not saying I am the best I could be  
Not playing that "oh hey look at me"  
You say you're happy with that ain't hard to please  
But for you I'm too much

The games you play could turn a drop into tears  
a dreary future seems to drag on for a year  
I think of you and I think just one more beer  
Cause for you I'm too much

You sure get happy when they're looking at you  
Playing the part from the start  
You get me thinking what I might like to do  
And then you leave me back here in the dark

I'm not going back to headache again  
You say you love me but only as your friend  
Didn't care the first time maybe get it on ten  
But for you I'm too much

You sure get happy when they're looking at you  
Playing the part from the start  
You get me thinking what I might like to do  
And then you leave me back here in the darkness

I'm not going back to headache again  
You say you love me but only as your friend  
Didn't care the first time maybe get it on ten  
But for you I'm too much  
But for you I'm too much too much
