

Goodbye To LA

Robbie Dupree

Packed my bags today, I'm out of here
Gone are those sour days
You get your way, it's in the deal
Like an expensive honeymoon
This will be over soon

Say goodbye to L.A.
It doesn't really matter what they say
You were the best around
This is the heartbreak town

Custom plates on his Mercedes-Benz
Those girls in Malibu will all want you until it ends
They spend their big time money fast
You knew this could not last

Say goodbye to L.A.
It doesn't really matter what they say
You were the best around
This is the heartbreak town

Here is my new day
I've got the hungry eye
Taken the fast lane

And I'm gonna drive all night
In the morning I'll be way across the line
This is a road I know, I'm gonna take it home
(Here's your souvenir from Hollywood)
Watching it all come down
This is the heartbreak town
Say goodbye...
