

I Don't Mind

Robbie Dupree

Somebody hurt me, baby
Way down deep inside
Somebody lied and I found out why
They call it crying time
I wrote the book on trouble
But you opened up my eyes
Now it's not too late, I've been swept away
And I wish I could make you mine

I can't stop thinkin' about you
You keep running across my mind
You've got me wrapped around your finger
But I don't mind, I don't mind, no

Your love is so amazing
I never felt this hard
Something inside lets me know it's right
And I'll listen to my heart
There are no second chances
I'm not gonna give you up
You changed my mind and just in time
I found someone to love

I can't stop thinkin' about you
You keep running across my mind
You've got me wrapped around your finger
And I don't mind, I don't mind
And I can't do a thing about it (No, no, no, no)
I won't even try, no, I won't try
It's just love doing its thing, girl
And I don't mind, I don't mind

I can't stop thinkin' about you
You keep running across my mind
You've got me wrapped around your finger
But it feels alright now
And I can't do a thing about it (No, no, no, no)
I won't even try, no, no
It's just love doing its thing, girl
Love doing its thing, girl

And I don't mind, no (Can't stop)
I don't mind now
You've got me wrapped around your finger
And I can't stop, I can't stop thinkin' about you
Because it's love doing its thing, girl
And I don't mind, I don't mind
I can't stop
Can't stop
You've got me wrapped around your finger
