

Secret Love

Robbie Dupree

You can't hide, you got to face it
You've given in to that sweet temptation
Tried to fight, but you can't resist it
Might be wrong, but it's so delicious

Secret love (secret love, secret love)
Secret love, yeah
And it feels so good (secret love)

Presidents and politicians
People up in high positions
Kid next door with a schoolboy crush
They got a taste of that secret love

Secret love (secret love, secret love)
Secret love, yeah
And it feels so good (secret love)
It feels so good (secret love)

Secret love, secret love
You try to stop, but you can't give it up
Just one time was not enough
Comin' back for more of that secret love

Secret love (secret love, secret love)
Well, you try, and you try (try)
But you can't get enough
Just one time was not enough, yeah (secret love)
Comin' back for more
Secret love, secret love, yeah

Secret love (secret love)
You try, try (try), but you can't give it up
Keep on lookin' for that (secret love)

Rumors fly in the neighborhood
Wink of an eye, 'cause it's understood
Cross that line and press your luck
Everybody knows about that secret love

Secret love (secret love, secret love)
Keep on tryin' (try), can't give it up
Secret love (secret love, secret love)
Secret love, secret love
You try to stop, but you can't give it up
Just one time was not enough
Comin' back for more of that secret love
Secret love (secret love), secret love
Secret love, secret love
You try to stop, but you can't give it up
Just one time was not enough
