

## We Both Tried

Robbie Dupree

What can you do  
When love decides to pass you by?  
The more we try  
The less we get along

There comes a time  
In every life  
When right and wrong  
Is what comes between us  
We've seen us fall apart  
Down to the seams  
Dreams

We both tried  
Then love died  
Old standbys  
Well, nice try  
So goodbye

Our love reminded me  
Of wishing on a star  
It was hard to feel anything  
It put us through the paces  
With total disregard  
For the love between us  
Refused to grow  
Refused to spread her wings  
Her dreams

We both tried  
Then love died  
We couldn't fool each other  
Old standbys  
Well, nice try  
So goodbye  
Goodbye

You know we both tried  
Tried to get ourselves together  
Then love died  
But we couldn't fool each other  
Old standbys  
Well, nice try  
So goodbye  
Oh, goodbye  
Goodbye, goodbye

We both tried  
But we couldn't fool each other  
Then love died  
'Cause we needed something better  
Old standbys (Old standbys)  
Well, nice try (Nice try)  
So goodbye (Goodbye)

We both tried  
We both tried to fool each other

Then love died  
'Cause we needed something better  
Old standbys (Old standbys)  
Well, nice try (Nice try)  
So goodbye (Goodbye)  
Oh

We both tried  
We both tried and tried to fool each other  
Then love died  
Couldn't be believed in each other  
Old standbys  
Well, nice try (Nice try)  
So goodbye (Well, goodbye, baby)
