

Come Alive

Robbie Seay Band

You are the wind rushing through the trees calling me
The tide that rises up, You are the sea
The wonder of the stars, You're Heaven's spring

You were not still, You were here close
Calling us to love to the ends of the earth we sing

Heaven and earth will all come alive
To sing of Your glory that opens the skies
You are my day and You are my night
It's You that I love, You bring me to life
You bring me to life

You are the tree, spreading out your roots, digging deep
You've become the shade that covers me
Your whispering of hope is all I need, yeah

You were not still, You were here close
Calling us to love to the ends of the earth we'll sing

Heaven and earth will all come alive
To sing of Your glory that opens the skies
You are my day and You are my night
It's You that I love, You bring me to life

Heaven and earth will all come alive
To sing of Your glory that opens the skies
You are my day and You are my night
It's You that I love, You bring me to life

You are the truth
Everything I am is found in You
Everything that's old becoming new
Everything old, You're making new, yeah
