

Go Outside

Robbie Seay Band

I go outside and praise the God
Who mapped the stars out in the sky
And gather 'round with those who love and sing

He is our King

I go outside and praise the God
Who mapped the stars out in the sky
And gather 'round with those who love and sing, yeah

He is our King
He is our King

No one should be left out
No one should be left out
No one should be left out
And no one should be left out

If you have air to breathe
And hear your call to sing

I go outside and praise the God
Who mapped the stars out in the sky
And gather 'round with those who love and sing, yeah

He is our King
He is our King

No one should be left out
No one should be left out, oh, no
No one should be left out
And no one should be left out

If you have air to breathe
And hear the call to sing

No one should be left out
No one should be left out
And no one should be left out
No, no one should be left out

No one should be left out
And no one should be left out, oh, no, no
No one should be left out
No one should be left out

Oh, hear the call to sing
Hear the call to sing
Hear the call to sing
No one should be left out

Oh, hear the call to sing
Hear your call to sing
Hear your call to sing, to sing

It's here
Hear the call, it's calling you to sing, to sing

Hear the call, it's calling you to sing, to sing
Hear the call, it's calling you to sing, to sing

And hear your call to sing
Hear your call
Hear this call
No one should be left out
