

Bye Bye

Robbie Williams

She's as old as she wants to be
And is cold as ice
And she can walk like a millipede right out of your life

It'll be thanks for the memory
The ghost in her machine
If you've tested her twice than you'll know what I mean
Cause she's so cool

She's moving into your mind alright and out of your life
Leave you love sick and lonely
She's probably wearing your shirts and waving bye bye
Isn't she lovely

She ain't taking no shit
She never did
Nobody's ever beat her, since she left the house for dead
And she's better than you, even better than me
And I guess I'll never gave her but as long as I can breathe
She's so cool

She's moving into your mind alright and out of your life
Leave you love sick and lonely
She's probably wearing your shirt and waving bye bye
Isn't she lovely

I cannot go there I know it
I'd just be wasting her time
I cannot go there I know that
I'd just be wasting her time
She used to be a friend of mine

She's moving into your mind alright and out of your life
Leave you love sick and lonely
She's probably wearing your shirt and waving bye bye
Isn't she lovely

She's moving into your mind alright and out of your life
Leave you love sick and lonely
She's probably wearing your shirt and waving bye bye
Isn't she lovely

And it feels just like the eighties
Don't it feel like the eighties to you
Feels just the eighties
Seems just like the latest move
Don't it feel like the eighties
She's just like the eighties to me.
