

# Gold

Robbie Williams

Are we disco dancing or throwing shapes in an empty space  
All eyes on me, here we go now  
When I'm done dancing with myself I wanna move with you  
Do you want to, too?  
Is there something better (something better, something better) than me, no  
There's nothing better (nothing better, nothing better) than me

Never gonna lose that wonder, fall under your control  
Go out and paint the world, make it gold

With tears in my eyes and love in my soul  
I feel like starting something  
The pain it subsides the minute I go  
I feel like starting something gold  
La-la-la, la-la-la-la, la-la-la-la-la  
I feel like starting something gold (la-la-la)  
La-la-la, la-la-la-la, la-la-la-la-la  
Don't you feel like starting something

Are you really real or a character from a film that I saw last year  
The cameras focusing on you, it should be focusing on me, it would be better

Never gonna lose that wonder, fall under your control  
Go out and get the girl and paint her gold

With tears in my eyes and love in my soul  
I feel like starting something  
The pain it subsides the minute I go  
I feel like starting something gold  
La-la-la, la-la-la-la, la-la-la-la-la  
I feel like starting something gold (la-la-la)  
La-la-la, la-la-la-la, la-la-la-la-la  
Don't you feel like starting something

We all get lost on our way to the dream  
But we have to believe we are going somewhere better  
Somewhere gold, gold  
Never gonna lose that wonder, fall under your control  
Go out and paint the world, and make it gold

I feel like starting something  
The pain it subsides the minute I go  
I feel like starting something gold  
(La-la-la) something gold (la-la-la-la, la-la-la-la-la)  
I feel like starting something gold (la-la-la)  
(La-la-la) something gold (la-la-la-la, la-la-la-la-la)  
I feel like starting something gold  
I feel like starting something gold
